

On March 9, 2023, pro-abortion lawmakers in the Colorado General Assembly introduced a three-bill abortion legislation package, deceptively named the “Safe Access to Protected Health Care.” Even though the 2022 Reproductive Health Equity Act (RHEA) already made Colorado one of the most extreme pro-abortion states in the country, pro-abortion lawmakers are still pushing for *more* abortion access. The package is even referred to as “RHEA 2.0.”

Here’s what these damaging bills do:

[SB23-190 Prohibiting Deceptive Practices at Anti-Abortion Centers](#)

- Eliminate a woman’s *choice* to sustain her pregnancy and save her child’s life through Abortion Pill Reversal (APR) by *banning* the treatment;
- Restrict and censor the good work Pregnancy Resource Centers do for our community.

[SB23-189 Increasing Access to Reproductive Health Care Services](#)

- Circumvent Colorado’s constitutional prohibition against public funding of abortion;
- Increase access to contraception and abortion referrals to minors under 19 years of age.

[SB23-188 Protecting Health Care Patients, Providers, and Assistors](#)

- Violate First Amendment rights of medical professionals and medical centers/hospitals that do not provide abortion-related services or “gender-affirming care;”
- Violate First Amendment rights of employers who do not provide abortion-related services or “gender-affirming care” in their insurance plan.
